Item #LAM100T3-PCD, Amana Tool Polycrystalline Diamond (PCD) Lamello Cutter 100.4mm Dia x 3T , 22mm Bore, for Zeta P2 Lamello Porter Router **\$223.92**

Thank you for shopping with us!
Suitable for making furniture. To be used both in CNC machines and Zeta P2 hand power tool. Recommended for grooving corner and longitudinal joints on hardwoods, veneered and laminated MDF with the P system anchorage.
Diamond is the hardest man-made material on earth. Polycrystalline Diamond (PCD) tooling is manufactured in a high-temperature and high-pressure laboratory that fuses diamond particles onto a carbide substrate.
