Item #LD6200, Whiteside Left Hand Spiral Bit Downcut -5/8 x 2 Two Flute \$245.50

Thank you for shopping with us!

Left hand rotation spiral bits provide a shear cutting edge that leaves a smoother cut than standard router bits. The downcut spiral design provides the best top surface edges, ejecting chips away from the router when routing through material. Also decreases the tendency to lift thin/small work pieces during CNC routing.
