Item #LM72M010, Freud Heavy Duty Rip Blades: Series LM72M \$70.43

Thank you for shopping with us!

Application: Smooth, Fast Heavy Duty Ripping

This blade gives smooth, fast rips in hardwoods and softwoods. The combination of a rigid blade body and razor sharp flat top carbide teeth will provide a "glue line" precision cut. These blades are precision balanced and can be used in gang-rip operations. The ideal working range is from 3/4" to 2 3/4" thick. This blade also features laser cut anti-vibration slots, practically eliminating the vibration that resonates in standard blades. With this ultimate ripping blade, there is no need for stabilizers.

Silver Ice Coating resists corrosion and pitch build-up. Perma-Shield™ Non-Stick Coating reduces blade drag, protects the blade from corrosion and pitch build-up.

Ideal For: Heavy-Duty General Purpose Applications. Crosscuts (3/4" to 3-1/2") & Rips (1/4" to 1").

Tip: When ripping wood, 3 to 5 teeth at a time should be working in the wood.

SPECIFICATIONS

Manufacturer	Freud Tools
Arbor	5/8 in
Diameter	10 in
Kerf	0.126 in
Plate	.087 in
Teeth	24 FLAT
Type	Silver Ice
