TOOLS

Item #LU81M012, Freud Heavy Duty Stacked Chipboard Blades: LU81M Series \$110.21

Thank you for shopping with us!

Application: Heavy Duty Fast Stacked Chipboard Blades

This blade is ideal for sizing sheet goods (chipboard, plywood, laminates, MDF) where speed is more important than a smooth finish or when cutting stacks of material. These blades are best used when cutting plywood and composition material, but they can also be used with hardwood and softwood.

Premium TiCo™ HI-Density Carbide Laminate Blend for Maximum Performance. Triple Chip Grind (TCG) Tooth Design with a positive hook angle for long life in production applications. Positive Hook Angle for fast cutting and easy feeding in production applications. Silver Ice Coating resists corrosion and pitch buildup.

Ideal For: Heavy Duty Fast Stacked Chipboard Blades. Depth of cut (1-1/4" to 3-1/2").

Tip: Resin buildup can cause a blade to drag in the cut, resulting in shorter blade life, burning in the cut, and unnecessary strain on the saw. For best results, be sure the blade is clean before use.

SPECIFICATIONS

Diameter	12 in
Arbor	1 in
Kerf	.126 in
Plate	.087 in
Teeth	48 TCG
Type	Silver Ice
Manufacturer	Freud Tools
