TOOLS

### Item #LU86R008, Freud Thin Kerf General Purpose Blades: LU86R \$49.95

Thank you for shopping with us!

#### Application: For General Purpose Applications

This heavy-duty thin kerf blade is good for crosscutting thick hardwoods and softwoods and thinner stock materials. The ideal working range is from 3/4" to 3 1/2" thick for crosscutting, and 1/4" to 1" for ripping. Thinner or thicker material may be cut, but some loss of surface finish may occur.

Premium TiCo™ HI-Density Carbide General Purpose Blend for Maximum Performance. Heavy-Duty Thick Kerf and Plate ensure a stable, flat blade for long cutting life. Positive Hook Angle for fast cutting and easy feed. Perma-Shield™ Non-Stick Coating reduces blade drag, protects the blade from corrosion and pitch build-up.

Ideal For: Heavy-Duty General Purpose Applications. Crosscuts (3/4" to 3-1/2" ) & Rips (1/4" to 1" ).

**Tip:** If you experience burning on one side of the cut, you should check and adjust the saw's alignment. Consult your saw owner's manual for alignment instructions.

## SPECIFICATIONS

<b>Diameter</b>	8 in
<b>Arbor</b>	5/8 in
<b>Kerf</b>	.087 in
<b>Plate</b>	.063 in
<b>Teeth</b>	34 ATB
<b>Type</b>	Perma-SHIELD
<b>Manufacturer</b>	Freud Tools
