### Item #LU87R009, Freud Thin Kerf Rip Blades: Series LU87R \$51.92

Thank you for shopping with us!

#### Application: Heavy-Duty Ripping Blades for Underpowered Saws

This blade gives new life to underpowered table saws and radial arm saws because the thin kerf does not require much horsepower. The Perma-SHIELD® coating helps this blade pull 1/3 less on the saw, which translates to over 33% more cutting power. The ideal working range is from 3/4" to 2 3/4" thick.

Premium TiCo™ HI-Density Carbide Ripping Blend for Maximum Performance. Thin Kerf allows for faster feed rate and reduced waste. Positive Hook Angles for fast cutting and easy feeding in ripping applications.

Perma-Shield™ Non-Stick Coating reduces blade drag, protects the blade from corrosion and pitch build-up.

Ideal For: Heavy-Duty Ripping Blades For Underpowered Saws. Depth of cut (3/4" to 2-3/4" ).

**TIP:** Maintain a proper feed rate. Feeding too slow causes burning of the material. Feeding too fast can be dangerous and produces a poor dull cut.

## SPECIFICATIONS

<b>Kerf</b>	0.094 in
<b>Diameter</b>	9 in
<b>Arbor</b>	5/8 in
<b>Bevel</b>	15 deg
<b>Plate</b>	.071 in
<b>Teeth</b>	22 ATB
<b>Type</b>	Perma-SHIELD
<b>Manufacturer</b>	Freud Tools
