### Item #LU89M015, Freud Thick Stock Non-Ferrous Metal Blades: LU89M Series **\$204.69**

Thank you for shopping with us!

**Application: Cuts Thick Non-Ferrous Materials & Aluminum**

This heavy duty, non-ferrous metal cutting blade produces an excellent finish. These blades have custom designed gullets to minimize chip buildup and specially formulated carbide for a long life. Freud recommends use of a liquid lubricant when cutting. This can be accomplished with a spray of WD-40 or other lubricant every 4 to 5 cuts. *Wax sticks are not recommended.*

Premium TiCo™ HI-Density Carbide Non-Ferrous Blend for Maximum Performance. Freud-Made TiCo™ Carbide specifically designed to cut non-ferrous metals extends tooth life. Unique Gullet Design reduces chip buildup, which can cause shoulder damage or breakage. Silver Ice™ Coating resists corrosion and pitch buildup.

Ideal For: Cutting Thick Non-Ferrous Materials & Aluminum. Wall thickness 1/4" Max.

**Tip:** To determine if the metal you wish to cut is non-ferrous, hold the metal next to a magnet. If it attracts the magnet, it is a ferrous metal and should not be cut with a non-ferrous blade.

## SPECIFICATIONS

<b>Diameter</b>	15 in
<b>Arbor</b>	1 in
<b>Kerf</b>	.142 in
<b>Plate</b>	.118 in
<b>Teeth</b>	108 TCG
<b>Type</b>	Silver Ice
<b>Manufacturer</b>	Freud Tools
