Item #MB10800C, Amana Tool Electro-Blu™ Carbide-Tipped Double-Face Melamine 10 Inch Dia x 80T H-ATB, -6 Deg, 5/8 Bore, Non-Stick Coated \$113.93

Thank you for shopping with us! Designed specifically to cut melamine, this blade does just that without chipping on the top or bottom edges. (Your table saw must be properly tuned, of course). The special "High ATB" grind (with 25° bevels) slices cleanly through fragile surface coatings like melamine and laminate. Coupled with a thick, heavy-duty plate for added stability, this blade produces extremely smooth cuts. It is easily resharpened.

Benefits of Electro-Blu™ Coating Reduces resin accumulation and heat build-up. Tips stay sharper longer resulting in extended blade life. Applied by using an electrostatic bonding process.

Warning: Before use, read saw blade safety guidelines in [Amana's catalog](#).

SPECIFICATIONS	
Diameter	10 in
Bore	5/8 in
Grind	H-ATB
Pinholes	--
Plate	.102 in
Teeth	80
Kerf	0.126
Manufacturer	Amana Tool
