Item #MD10-301, Amana A.G.E. Series Glue Line Ripping Saw Blades, TCG Grind

\$83.58

Thank you for shopping with us!

Extra smooth finish. MD10-301: One of Amana's most popular blades. These special glue line blades shear the wood cleanly so there is no need to joint the stock prior to gluing. The precision triple-chip grind and extra-high hook angle allow aggressive feed rates, yet produce an extra-smooth finish. The thick steel plate and laser cut expansion slots minimize vibration and reduce noise. Use on table saws, sliding table saws, single, and gang-rip operations. **Warning:** Not recommended for cutting non-ferrous alloys, plastic, laminate, and melamine.
