Item #MD10-305, Amana A.G.E. Series 10 in Heavy Duty Non-Ferrous for Thick Walled Aluminum Saw Blades - Cut Aluminum Hurricane Shutters: TCG Grind \$50.21

Thank you for shopping with us! . **Cut heavy gauge aluminum hurricane shutters.** The rugged design makes these blades well-suited for rough, abusive applications. Used for cutting non-ferrous metals such as brass, copper, and aluminum, the teeth feature a "chip limiting" design that limits overfeeding and grabbing of the workpiece. Will also cut wood and plastics. Lubrication will reduce friction and heat, prolonging the life of the blade. For use in radial arm saws, miter saws, and table saws. **Warning:** Never attempt to cut ferrous metals (steel, iron, etc.) with these blades.
