**Item #MD10-801, Amana A.G.E. Series General Purpose Saw Blades: TCG Grind \$86.89**

Thank you for shopping with us!

**Designed for clean cuts in plywood and single-sided laminates.**

These blades are specifically designed for clean cuts in plywood and single-sided laminates. The greater number of teeth, triple-chip grind, and 12° hook angle provide an excellent balance between feed resistance and finish. For a chip-free edge on both top and bottom sides of the double-sided laminates, it is recommended to use [a scoring blade](#) along with these blades.

MD10-801: one of Amana's most popular saw blades.

**Warning:** Not recommended for cutting non-ferrous alloys and melamine.
