Item #MD10-806, Amana A.G.E. 10 in Double Miter Saw Blade: 4&1 Grind
\$87.41

Thank you for shopping with us!
Cut gap-free miters, every time. These blades are designed especially for glass-smooth compound miter cuts in moldings and picture frame stock for use in a miter box and single/double miter machines. This style blade is the perfect choice for picture frame and millwork shops. Unlike thinner miter blades, which have a tendency to flex and warp, throwing off the miter joint, our blades are stiffer and provide clean burr-free cuts in wood. Special grind, minimal run-out, and tight side clearances all combine to yield perfect " gap-free" miters every time! MD10-806: One of Amana's most popular blades.
Warning: Not recommended for cutting non-ferrous alloys.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	10 in
Bore	5/8 in
Grind	4+1

SPECIFICATIONS

Kerf	3.0 mm (.118 in)
Hook Angle	-5 deg
Note	One of Amana's most popular blades.
Plate	2.5 mm (.098 in)
RPM	6,200
Teeth	80
