Item #MD12-976TBR, Amana A.G.E. Series Thin Kerf Sliding Compound Miter & Radial Arm Saw Blades: ArmorMax™ Coating \$125.59

Thank you for shopping with us!

Designed for sliding compound miter saws.

These blades are specially designed for sliding compound miter saws, providing an exceptional finish. The -3° negative hook angle provides an extra margin of safety by pushing the stock downward and toward the fence. Thin kerf blades reduce waste in expensive materials and require less horsepower to operate.

ArmorMax™ non-stick coating.

Warning: Not recommended for cutting non-ferrous alloys.

Soft / Hardwood Crosscut

Sliding Compound Miter
