Item #MD8-601, Amana A.G.E. Series General Purpose Saw Blades: TCG Grind
\$69.08

Thank you for shopping with us!

Designed for clean cuts in plywood and single-sided laminates.

These blades are specifically designed for clean cuts in plywood and single-sided laminates. The greater number of teeth, triple-chip grind, and 12° hook angle provide an excellent balance between feed resistance and finish. For a chip-free edge on both top and bottom sides of the double-sided laminates, it is recommended to use **a scoring blade** along with these blades. **Warning:** Not recommended for cutting non-ferrous alloys and melamine.

	NOT RECOMMENDED	FAIR	GOOD	EXCELLENT
