Item #ML-30580H, Tenryu Mel-Pro Series Hi-ATB Melamine & Veneer Plywood Cutting Blades \$217.80

Thank you for shopping with us!

Table Saw. Miter Saw.

Each Blade Features:

- Hi-ATB design with negative (-5°) rake angle tooth geometry. NO TEAR OUT!
- Traditional full kerf, "European-Style" blade design.
- C-4 hardness, super-fine grain, anti-corrosive carbide tips for the keenest edges and extended sharp life.

Premium, Industrial Hi-ATB Series Features:

- Specially developed, top-grade, super-fine grain carbide tip.
- Additional "resin-filled" laser cut body slots succeed in vibration dampening to an even greater extent.
- Exhaustive hand-hammered plate tensioning assures truer and smoother cuts.
- Longer lasting than our economy series
