Item #MS14100-5/8, Amana Tool Carbide-Tipped Miter 14 Inch Dia x 100T 4+1 ATB, -2 Deg, 5/8 Bore \$261.30

Thank you for shopping with us!

Blades are true "Imperial" sizes.

Designed especially for use on the various styles of miter saws, as well as radial arm saws, this blade cuts crisp, chip-free miters in hardwood and softwood, in moldings, and picture frame stock. All of these blades feature the alternate top bevel plus rake grind (4 ATB + 1 raker), 2° negative hook angle, and a high tooth count to produce exactly what you want for tight miters—extremely smooth cuts.

Warning: NEVER attempt to cut ferrous metals (steel, iron, etc.) with these saw blades. When cutting non-ferrous metals, a coolant or blade wax should be used and proper clamping devices employed.
