### Item #MSB1080-30, Amana Tool Carbide-Tipped Double-Face Melamine 10 Inch Dia x 80T H-ATB, -2 Deg, 30mm Bore, Korton & Veneers \$121.62

Thank you for shopping with us! Alterations to the geometry and plate thickness provide improved results in certain melamine boards. The bevel angle of the ATB grind is far more acute ( $35^\circ$ ), and the plate is thinner than our standard melamine blades. **Warning:** Before use, read saw blade safety guidelines in [Amana's catalog](#).

*2° Negative Hook • 35° 'High-ATB' Grind*

Note: P.H. denotes pin-hole configuration, if applicable. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.
