Item #PC-25580CB, Tenryu Plastic Cutter Series **\$90.00**

Thank you for shopping with us!.

Table Saws. Miter Saws. Battery Powered Saws.

Tenryu's best value for quality cuts in a wide variety of plastics. Thin kerf! Excellent Cuts!

The Plastic Cutter series offers true quality, variety, and affordability. Designed for general purpose cutting applications, the Plastic Cutter blades will perform very well in a wide variety of plastic materials. Cutting plastics with the wrong blade results in chipping of brittle materials and/or melting of the cut edge. Tenryu Plastic Cutter blades are manufactured to strict tolerances to reduce chipping. In addition, the "no melt" grind pattern on the carbide teeth helps keep heat build-up down and prevents melting. Smooth, clean, and melt-free cuts in PVC, acrylics, and other sheet plastics are made possible.

Each Blade Features:

- Individually hammer-tensioned steel plates for true run.
- Specially selected grade of carbide for excellent work in plastic.
- Tenryu's super-fine honing leaves a mirror-like finish on the carbide for clean and melt-free cuts.

SPECIFICATIONS
