### **Item #RD5150, Whiteside Standard Spiral Bit 1/2 x 1 1/2 Downcut - Two Flute \$59.70**

Thank you for shopping with us! Whiteside Machine spiral bits provide a shear cutting edge that leaves a smoother cut than standard router bits. The downcut spiral design provides the best top surface edges, ejecting chips away from the router when routing through material. This design also decreases the tendency to lift thin/small work pieces during CNC routing.
