Item #501, Whiteside Machine Roundover & Beading Router Bit Set \$130.88

Thank you for shopping with us! Roundover bits are by far the most used edge forming bits in woodworking. This set offers the most common radii (R1/4", R3/8", R1/2") in 1/2" shanks, plus a hefty 3/4" radius workhorse. Extra bearings and wrench are included to convert each bit from Rounding over to Beading; i.e., Roundover with a decorative step. Set comes in a durable plastic case to protect and organize your tools. Also available in a [1/4" shank option](#) sold separately. Contains Items: 2006, 2008, 2009, 2010, four B2 bearings, and wrench.
