Item #SS12012-34, Everlast 120mm Diameter 2 x 12 Teeth 3/4" /19.05mm Bore STR Grind .110-.142" /2.8-3.6mm Kerf Split Scoring Saw - Straight Top
\$151.86

Thank you for shopping with us!

Used on sliding carriage panel saws to score the bottom of panels, thus allowing a large saw to cut through without chipping the material on the bottom side. Shims are provided to adjust kerf to match large blade.

Straight Top Grind - STR - Each tooth will cut full kerf, making this design very effective for removing material however high cutting pressures are present. Typically used for rip cutting hardwood and softwood.
